EDUCATION AND TRAINING

Bachelor of Medicine in Medicine
Wenzhou Medical University
2010 - July 2015

Ph.D. - Anesthesiology
Shanghai Jiao Tong University
September 2015 - June 2020

Visiting Scholar - Neurology and Pediatrics
University of California San Francisco, United States
October 2018 - October 2019
Research mentor: Donna M. Ferriero

Residency - Anesthesiology
The Second Affiliated Hospital, Zhejiang University School of Medicine
September 2020 - August 2023
Standardized Residency Training (national program), three years, including an intensive care unit (ICU) rotation.

Clinical Postdoctoral Fellow
Zhejiang University
September 2020 - February 2024
China's clinical postdoctoral program integrates research with standardized residency training. This appointment overlapped my residency and the beginning of my subsequent anesthesiologist role.

LICENSURE AND PROFESSIONAL QUALIFICATIONS

ECFMG Certification · 2026

USMLE Step 1 · Pass

USMLE Step 2 CK · Pass

OET Medicine · Pass

USMLE Step 3 · Planned completion before December 2026

Attending Physician qualification · Intermediate professional title, Anesthesiology · China, 2024

Physician Qualification Certificate and Physician Practice Certificate · China, 2016

Associate Senior Professional Title in Research (Associate Researcher) · Zhejiang Province, China, 2025

PROFESSIONAL EXPERIENCE

Associate Researcher
Sub-Laboratory of the State Key Laboratory of Membrane Biology, Hangzhou Lin'an District Qingshan Lake Future Industry and Technology Innovation Center, Hangzhou, China
November 2024 - Present
Research on cerebral ischemia and neuroprotection, with a focus on autophagy and mitophagy.

Anesthesiologist
The Second Affiliated Hospital, Zhejiang University School of Medicine, Hangzhou, China
September 2023 - October 2024

- Provided perioperative anesthesia care, including induction, intraoperative management, emergence, and postoperative handoff, with senior consultation for complex cases.

- Staffed and helped establish the preoperative anesthesia clinic, including patient screening, risk assessment, patient optimization, and assessment workflows.

- Supported clinic IT optimization, critical-value alerts and escalation, and preoperative communication across departments.

- Performed ultrasound-guided peripheral nerve blocks and vascular access; taught international medical students through operating-room orientation and case discussions.

U.S. CLINICAL OBSERVERSHIPS

Observational focus: Regional anesthesia, preoperative assessment, intensive care, and operating-room general anesthesia.

Clinical Observer
University of Utah Hospital, United States
November 2026 - Four weeks, planned
Department of Anesthesiology, Perioperative & Pain Medicine

Clinical Observer
Torrance Memorial Hospital, Torrance, California, United States
October 2026 - Four weeks, in progress
Department of Anesthesiology

RESEARCH FUNDING

Principal Investigator - NSFC Young Scientists Fund
National Natural Science Foundation of China - Project No. 82302479
2024 - 2026
Protective effects and mechanisms of HIF-2α in immature brain hypoxic-ischemic injury through regulation of mitophagy.

PATENT

First inventor. Sun D, Luo G, Yao Y, Yan M. Continuous oxygen saturation monitoring probe for insertion into a central venous catheter. Chinese Utility Model Patent, ZL 2024 2 3305545.1. Granted April 21, 2026.

A probe designed for placement within a central venous catheter to continuously monitor central venous oxygen saturation (ScvO2), intended to help assess the balance between oxygen delivery and consumption in real time. A utility model protects a technical product design.

CLINICAL EXPERIENCE IN NUMBERS

Rounded residency records and estimated cumulative experience through October 2024. Categories overlap; no unique patient total is implied.

Anesthetic care and surgical specialties

Category	Residency log ~July 2023	Cumulative estimate October 2024
General anesthesia	~600	~800
Monitored anesthesia care (MAC)	~600	~800
General, urologic, orthopedic, and burn surgery	~300	~400
Pediatric surgery	~140	~190
Obstetric and gynecologic surgery	~90	~120
Thoracic surgery	~80	~110
Cardiovascular surgery	~30	~40
Neurosurgery	~80	~100
Oral surgery	~40	~50
Ophthalmic and ENT surgery	~90	~110
Outpatient and/or non-operating-room anesthesia	~160	~210

Selected procedures and airway techniques

Category	Residency log ~July 2023	Cumulative estimate October 2024
Peripheral nerve blocks	~40	~50
Neuraxial anesthesia (including epidural)	~100	~140
Arterial catheterization	~100	~130
Central venous catheterization	~80	~110
Double-lumen endobronchial intubation	~100	~130
Flexible bronchoscopy	~50	~70
Laryngeal mask airway placement	~30	~50

Residency figures are rounded from the training log through approximately July 2023. Cumulative figures through October 2024 are self-reported estimates, calculated as original residency volumes × 4/3 and rounded to the nearest 10. Categories overlap and must not be added to obtain a unique patient total.
